## SARAH SMITH & SEA STEELE

### *Using Media for Visual Literacy, Critical Thinking & Social Justice*

We'll explore why today's students need the skills to interpret how multimodal texts evoke meaning, emotion, & power. You'll step into your students' shoes during a demo lesson featuring a provocative text which sparks curiosity & conversations about fairness & social justice. Together, we'll discover how creative engagement with multimodal texts helps students think critically in a complex, media-rich world!
