STARTING OVER

A new school year is about rebirth and starting over. Are you nervous about starting over? Don't be: "Well the road rolls out like a welcome mat / To a better place than the one we're at [...] Let's beat the storm and be on our way..." (Chris Stapleton, 'Starting over', 2020)

In order to help you be on your way, APPI provides you with the current professional development event – the 'Starting over' Seminar to be held on September 25 – thanks to the generosity of five well-known, talented speakers.

The APPI Executive Committee wishes you an inspirational Seminar and a high-yielding new school year.

Kaizen in English Language Teaching and Learning

José Moura Carvalho has been involved in the introduction of digital technology in education for the past 30 years. Lately he has been searching for the "missing link(s)" between teaching and learning. He is a teacher trainer and President of the APPI General Assembly.

Just a few housekeeping notes before we get started . . .

Although that wonderful summer breeze is on the way out, that doesn't mean we have to dread that scary September. In fact, why not dance our way into the new school year and make it a breeze with a refresher on simple housekeeping notes that are definitively relevant for teachers' practices: Decree-Law 55/2018; DL 54/2018; Curriculum Flexibility; Inclusive Practices and the Universal Design for Learning.

Come prepared for hands-on activities that will inspire you to kick off the new school year with a lot of enthusiasm and give a nice rhythm to the year! (Note: this session will be presented in Portuguese)

Rómulo Neves, or Rom as he prefers to be named, is a qualified teacher and teacher trainer. He has been teaching EFL and SEN for over 20 years, having taught in many different contexts and countries. He is currently the APPI Madeira Regional Coordinator as well as the Secretary of the newest IATEFL's Special Interest Group about Inclusive Practices and SEN.

“A Fish Out of Water” – Projects using music videos to develop empathy

Music and videos are an inseparable part of teenagers’ lives. In this very practical session, we will be looking at narratives in music videos and how they can be used to work on projects that will engage learners. Not only will they help develop their language skills, but perhaps more importantly, focus learners’ attention on deep and meaningful issues that will lead to a deeper understanding of the importance of empathy.

Anna Pires has been an EFL teacher in Portugal for over 25 years. She is the Assistant Director of Studies at International House Braga and a coursebook writer for Porto Editora. She is very passionate about working with YLs and teenagers and loves the challenge of trying to motivate and engage her students. Her love for music is always present in her teaching and in her sessions.
